AYUSH SINGH GUSAIN

B.Sc. IT Student | Graphic Era Hill University

8923151331 | ayushgusain677@gmail.com | Dehradun, Uttarakhand, India

PROFILE

B.Sc. IT student (5th Semester, GPA: 7.98/10) with strong hands-on experience in machine learning. Passionate about building production-ready applications, writing clean code, and solving real-world problems. Seeking a **Software Development or Data Analyst** internship to contribute technically and grow in a professional environment.

TECHNICAL SKILLS

- **Programming Languages:** C, Python, Java, SQL
- **Web Development:** Node.js, Express.js, EJS, Streamlit, RESTful APIs
- **Databases:** MongoDB, MySQL
- **Developer Tools:** Git, VS Code, Postman, Docker (Basics), Render (Deployment)
- **Core CS:** Data Structures & Algorithms, OOP, Debugging, Unit Testing, Agile Methodology
- **Data & AI:** Pandas, NumPy, Scikit-learn, Feature Engineering, Data Cleaning, Prompt Engineering

EDUCATION

Degree	Institution	Year	Score
B.Sc. Information Technology	Graphic Era Hill University, Dehradun	2024 – Present (5th Sem)	**GPA: 7.98/10**
Class XII	CBSE	2024	**70%**
Class X	CBSE	2022	**65%**

PROJECTS

1. **FoundIT – Virtual Lost & Found Platform for College**
   Tech Stack: *Node.js, Express.js, MongoDB, EJS, JWT, HTML/CSS, Render*
   - Developed a full-stack web platform enabling college students to report and search for lost/found items, serving **150+ active student users.**
   - Implemented secure **JWT-based authentication** and bcrypt password hashing to ensure data privacy and secure login sessions.
   - Designed RESTful APIs for item management and built an advanced search/filter feature (by category, location, and date) to improve user experience.
   - Deployed the application on **Render** with continuous integration, achieving **99% uptime.**

2. **AI-Based Student Career Recommendation System**
   Tech Stack: *Python, Pandas, NumPy, Scikit-learn, Streamlit*
   - Collected and pre-processed student academic/skill datasets using Pandas and NumPy, performing feature engineering to prepare clean training data.
   - Built and compared multiple classification models (Random Forest, SVM), achieving **85% accuracy** in recommending the top 3 suitable career paths.
   - Designed an interactive **Streamlit** dashboard that not only recommends careers but also provides personalized skill-gap analysis and learning path suggestions for each career.
